

## Department of Public Health Dentistry

### WORLD NO TOBACCO DAY

Oral health is a **key indicator of overall health, well-being and quality of life**. Tobacco consumption can impact oral health adversely. Tobacco dependence can cause major oral health problems such as gum diseases and oral cancer which can affect the overall health. On the occasion of “WORLD NO TOBACCO DAY, 31<sup>ST</sup> MAY 2023” as per the theme proposed “GROW FOOD, NOT TOBACCO” Department also conducted “NUKKAD NATAK” in the campus to educate non-teaching employees regarding the ill-effects of tobacco consumption and importance of having nutritious diet. “ORAL HEALTH EDUCATION MATERIAL” was also provided to general public. This programme was organised under the guidance Dr C M Marya (Principal & HOD). The event was made successful effortlessly with great enthusiasm.
